## Featured Service: Spring Bulbs

They surely don't look all that beautiful at this stage, but oh what a show they will put on in a handful of months! Now is the time for Spring bulb planting. Time to tuck them in for a long winter's sleep and we can help you plan out a beautiful array of blooms for your Spring garden.

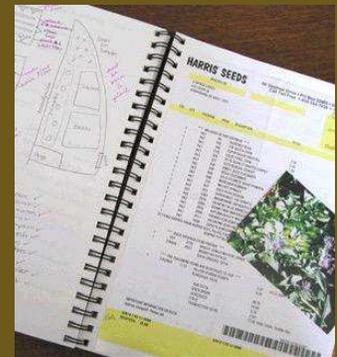

Might we suggest...  
Tulips, Hyacinth, Muscari,  
Daffodils, Frittilaria, Allium,  
Crocus, Snowdrops,  
Narcissus, Squill, Spanish  
Bluebells, Anemone, Scilla...

We can find the right bulbs for your spaces!

## A "Perfect" Tip:

Try keeping a garden journal. As this gardening season comes to a close, make notes about what worked, what you'd like to change for next year, what you'd like to add. If you stumble on pics of great gardens during the winter months, add those in...it's your own "Pinterest" board of a journal. So, when Spring comes along, you will be ready!

## Fall Service:

## Let us put your garden beds...to bed.

As the days become crisp and the leaves begin to fall, it must be time for that last cleanup

of the yard before winter: perennials to be cut down, garden beds weeded and cleaned of debris, shrubs to be wrapped, leaves to be raked...lots to do to get ready for winter and insure that your garden

weathers the cold winter well. We want to make sure that your plants and yard is healthy and ready to bloom come

Springtime. Call us and we can give your yard the "going over" and make sure that this season ends well before a new one begins!

## Coming up: Plan ahead for holiday decorating!

As landscapers, we are planners. Planning for the next season and all the great things that come with it. One of those things coming before you know it will be holiday time!

## A few pictures from our Grand Opening...

We don't say this to stress you out-we mention it to \*take\* the stress off of you for the holiday season.

Stringing lights, hanging artful boughs on mantels and porches, decorating trees inside and out with ornaments and hundreds of twinkling lights, designing overflowing containers of seasonal greenery, ribbons, or berries...this is something we love to do! Just be sure to call soon and book an appointment so that we can give your house that special glow and decor for the season.

### **And thank you always...**

...for your loyalty and your business! Without you, we would not *be* in business and we genuinely enjoy having you all as our clients.

***Let us design, install, and maintain your Perfect garden and yard. We invite you to be part of our blooming success.***

***Feel free to call us with any questions and inquiries... big or small!***
